- FREE 800 Phone Number With Call Tracking

## Is A Car Sale Worth The Cost Of An Espresso?

There is an inexpensive alternative to newspaper advertising. You can easily show every single car in your lot on the **number-one classified ad site in America!** Craigslist is a free site with a built-in loyal audience of **OVER 15 MILLION** localized visitors in every metro area across the country every month. This grassroots site makes the **perfect** car lot, although advertising there is challenging to the inexperienced dealer.

We offer weekly visibility of all your cars with attractive style, a **free** clickable banner, a **free** 800 phone number with call tracking, and daily updates of your inventory from your DMS. You can tap into the high traffic of these local car buyers every week of every month for about **THE COST OF AN ESPRESSO PER CAR AD** posted.

America's newspaper audience is flooding into Craigslist every week, making it bigger than the largest privately held newspaper today. It directs an existing **loyal audience of local car buyers** to all the cars they're ready to buy. If your competitors aren't advertising on Craigslist yet, they soon will be. You can modernize your advertising to reach millions of ready buyers every month. Visit [www.craigscarlistings.com](http://www.craigscarlistings.com), or give us a call today!
